Project Name	Inventory Management System for Retailers

	I am	I'm trying to	But	Because	Which makes me feel
	I am a rice shop owner who keeps his stocks updated	Update the current stock in my inventory according to the customer's purchases	I'm unable to upload and update the data	The server is very bad due to the network in remote areas	frustrated and unable to update the products which users needed.
	I am Murugesan, who is a customer to a shop	Update the products which are not available at the store	the data has been entered wrongly	heavy network traffic to update	to go for alternative decisions like searching on another shop, leave the product out etc.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	I am a rice shop owner who keeps his stocks updated	Update the current stock in my inventory according to the customer's purchases	I 'm unable to upload and update the data	The server is very bad due to the network in remote areas	Frustrated and unable to update the products which users needed.

PS-II	I am Murugesan, who is a customer to a shop.	Update the products which are not available at the store.	the data has been entered wrongly	heavy network traffic to update	to go for alternative decisions like searching on another shop, leave the product out etc.
